Policy

Gender Categories

Tournament Eligibility and Gender Category Policy

Tournament Gender Categories

1. Buhurt International recognizes three Gender Categories for duels, outrance(profight), and buhurt(group fight). Competitors are required to choose and compete in a single gender category for the entire event. Each category will be ranked separately.
2. MEN'S
 - 2.1. All AMAB (assigned male at birth) competitors are eligible to compete, regardless of gender identity, including cisgender males. FTM (female to male) competitors are also eligible to compete in this category.
3. WOMEN'S
 - 3.1. All AFAB (assigned female at birth) competitors are eligible to compete regardless of gender identity, including cisgender women.
4. WOMEN'S OPEN (optional)
 - 4.1. All AFAB (assigned female at birth) competitors are eligible to compete regardless of gender identity, including cisgender women. MTF (male to female) competitors are eligible to compete if they have been living as a woman for 2 years or more.
5. All tournaments must offer both the Men's and Women's categories. A tournament may also allow duels, pro fights, or group fights in the Women's Open category if there are sufficient competitors willing to do so. If dividing the categories results in insufficient competitors for either the Women's or the Women's Open category, only the Women's category may be held.
6. To issue awards for the Regional, Conference, and International stage, there must be a minimum number of five events per category in the season.
7. EVENT ORGANIZERS
 - 7.1. Must inform competitors at least One month from the start date of the event if the Women's Open category will be part of the event or not.
